Secure IT Plus Guarantees Protection

According to Consumer Reports 2005 State of the Net survey, Americans spent \$2.6 billion in anti-virus computer protection software over the past two years.

Has it helped? You may be surprised to learn that more than \$9 million was spent during those two years to fix problems with Internet-delivered issues caused by viruses and spyware. With all that money being spent on protection, why does the problem continue to grow?

The majority of consumers rely on free downloads and software in a box solutions. These products require users to install, maintain, and keep them updated. According to the 2004 National Cyber Security Alliance Online Safety

Study, the majority of anti-virus programs weren't up-to-date or set up properly.

Now there's help with Secure IT Plus available from Randolph Telephone. Recognizing the need to help our customer protect their computer, we have partnered with the only guaranteed computer protection service on the

market - SecureIT Plus.

SecureIT Plus service provides:

- ◆ Firewall Protection
- ◆ Fully automated protection and removal of viruses, spyware, and adware
- ◆ Automated hard drive maintenance and optimization
- ◆ Automated installation of tested Microsoft patches
- ◆ Monthly e-mail reporting
- ◆ Free professional installation
- ◆ Free technical support

SecureIT Plus is offered to our Internet subscribers at the reasonable rate of **\$4.95 per month**. Sign up for SecureIT today. Call (336) 879-5684. ■

CAPITAL CREDITS

Your Share Of RTMC's Success

On the surface, telephone companies may appear alike - but not for Randolph Telephone customers. As members, you own a share in our cooperative and have a say in the cooperative's future.

With each payment you make and with each service you take, you earn capital credits.

Capital credits are the funds left over after all expenses are paid. These funds are allocated to our members annually on a proportional basis. Randolph Telephone uses this capital for a period of time to invest in quality infrastructure you've come to know us by. But sometimes, if we don't have your most current address or you don't cash your December check within 90 days, we are left holding these dollars for you. Don't waste this valuable opportunity. Each December, we mail out "capital credit checks" to our members from a past year.

Be sure to review the August bill insert

Saving Time . . . And Money! Here Are 5 Ways Randolph Telephone Can Do Both For You

Randolph Telephone has numerous ways to help you simplify bill paying.

Here are five suggestions to keep you from wasting time paying multiple bills and writing unneeded checks.

☞ Switch to RTTI long distance and have your long distance charges included on your local phone bill. One Bill, Countless Savings.

☞ Don't waste time writing a check. Let Randolph Telephone set up automatic bank draft for your monthly phone bill.

☞ A monthly credit card draft can also be helpful in saving time when paying bills. Randolph Telephone will set this or bank draft up free of charge.

☞ Bundle and Save! Try high-speed broadband Internet from Randolph Telephone and eliminate a second Internet bill. Pay your local phone service, long distance and your Internet service at the same time. Add in your cell phone too.

☞ eBill - Save a stamp! Pay your bill online 24/7 on our eBill site using a debit card, VISA or MasterCard. (<https://ebill.rtmc.net>)
