

TELECOMMUNICATION CONSTRUCTION TECHNICIAN

Randolph Communications is seeking a hard-working, self-motivated Telecommunication Construction Technician. Duties include installation and repair of outside plant copper and fiber optic cable facilities, diagnosing and repairing trouble in plant and telecommunications facilities, assist Install/Repair technicians or contractors with damages to outside plant facilities or private utilities, performing line/ground work, operating automotive and construction equipment. Valid driver's license required; CDL is preferred. Working conditions consist of exposure to dust, dirt, heat, fumes, contaminants, cold, rain, mud, noise, and an ever-changing work environment including location and or duties. Basic computer knowledge, heavy lifting, digging, pulling wire, crawling under houses, and shovel work required. Applicant needs to be able to communicate effectively with customers and co-workers in a professional manner, and possess the ability to read and interpret maps and staking sheets. High School diploma or equivalent required. Salary commensurate with experience. Excellent benefit package. Randolph Communications utilizes pre-employment drug testing and background checks as a condition of employment. EOE
