

INSTALLATION & REPAIR TECHNICIAN

Randolph Communications is seeking a hard-working, self-motivated Installation/Repair Technician. Duties include installation and repair of communications and broadband services, performing aerial and ground line work, diagnosing and repairing telecommunications facilities and equipment. Minimum requirements include the ability to lift 50 pounds, work in close and confined spaces, and perform physical tasks with routine exposure to dust, dirt, fumes, contaminants, and temperature extremes. Heavy lifting, digging, pulling wire and crawling under houses required. Employee will be required to participate in an on-call rotation for service restoration on weekends and after regular business hours. Previous experience with mechanical and electrical power tools is essential, and a basic understanding of electronics is preferred. Applicant must possess the ability to communicate with customers and co-workers in a professional manner and the ability to read and interpret maps and staking sheets. Valid driver's license required. Salary commensurate with experience. Excellent benefit package. Randolph Communications utilizes pre-employment drug testing and background checks as a condition of employment. EOE

For consideration, applicant should submit Cover Letter, Resume, and References to:
